

May 18, 1977

Robert D. Brickman, M.D.
President
Tidewater Emergency Medical Services
11 Koger Executive Center Suite 201
Norfolk, VA 23502

Dear Dr. Brickman:

As you are aware, I have recently been accepted as a freshman student at the Eastern Virginia Medical School for the class which begins July 5, 1977. Due to this fact, I have submitted my resignation as Superintendent of the Bureau of Paramedical Rescue Services to the City Manager effective July 5, 1977. Therefore, I must also hereby submit my resignation as a member of the Tidewater Emergency Medical Services Council to become effective June 1, 1977.

I would like to take this opportunity to thank all of the fine people who I have had an opportunity to work with during my term on the Council. The accomplishments of this body towards the improvement of Emergency Medical Services will probably never be totally recognized by the Public. However, there is no doubt in my mind that sick and injured patients who are serviced by our system will continue to receive the best possible care available as long as we all remember that our number one goal must continue to be focussed on all the needs of the "PATIENT." I believe that the politicians in our region should take a serious look at the accomplishments of this Council which have significantly improved the EMS capabilities of the entire region. I would point particularly to the fact that this has been done without the personal loss of identity or organization of any sub-component within the system. Our efforts have clearly demonstrated the viability of this approach towards improvement of services for the citizens of our respective communities.

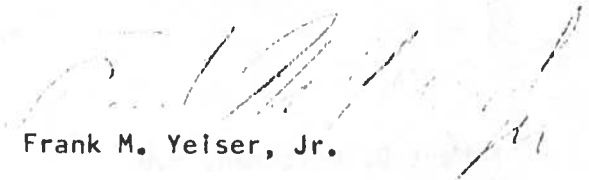

Norfolk

Bicentennial City

I will look back with pride on your accomplishments and I am proud to have had the opportunity to participate in the development of this Council. Keep up the good work and please remember the "Patient."

Sincerely yours,

Frank M. Yeiser, Jr.
